New Features

Restart TV

 **Missed the beginning of your show? Restart It!**

Restart TV gives you the ability to restart a program that is already in progress. Or if you are browsing channels and see a show you wanted to watch that has already begun, Restart it and watch it from the beginning.

- Restart Channels are highlighted by the green and white Restart icon
- The Restart icon can be found in the Program Guide as well as the What's Hot app and the Browser Bar.

Restart TV can be used in your guide or if you are watching a program that has Restart TV enabled.

In your guide, if a program has Restart enabled, click the **Green Button** on your remote to start the show from the beginning.

You can use the **Rewind or Fast-Forward Button** to skip commercials. The **Pause Button** will let you take a quick break. The **Stop Button** will prompt you with a message to go to **Live TV**, or a **channel up or down** will take you back to **Live TV**.

Cloud DVR

Cloud DVR: Saving your recordings in our CLOUD rather than on your local DVR Set Top Box.

Storage Space - Flexible Recording - Reliability - Availability

~~~~~  
Don't worry about losing your recordings and consider our Cloud DVR service!

ARE YOU IN THE CLOUD?

XIT's **CLOUD DVR (CDVR)** is capable of recording up to **five** different programs at the same time across your account.

Together with **Restart TV and CDVR**, you can record the complete program, even if the program is almost over.

With **Whole Home DVR**, you can view and manage shows you have recorded in all **Set Top Boxes (STBs)** in your home.

Use the **List Button** on your remote for quick access into your recordings.

You can still go to your **Menu** and then **Recording** to access it.

# Weather App

**Weather Information at your fingertips...**

Press the **Yellow Button** on your Remote Control and click on **WEATHER!**

This screenshot shows the weather app interface with a 5-day forecast: This Afternoon, Friday, Saturday, Sunday, and Monday. Below the forecast, it displays current conditions: "This Afternoon: Sunny, with a high near 31. North northwest wind between 9 and 18 mph, with gusts as high as 28 mph." and "Tonight: Mostly clear, with a low around 13. North northwest wind 5 to 8 mph becoming south." At the bottom, there are buttons for "Weather" and "Radar", and a "NEXT IRON CHEF" banner.

This screenshot shows detailed weather information for Mitchell. It displays the current temperature as 27°F and Wind Chill as 17°F. Other details include: "Winds: N at 20 MPH, gusts: 27", "Pressure: 30.55in", and "Humidity: 39%". There are buttons for "Forecast" and "Radar". At the bottom, there is a "NEXT IRON CHEF" banner and a "food" logo.

# MyTVs App

Use the MyTVs app to turn your Apple or Android Device into a Remote Control.

- Perform Remote Control functions
- View and Search the TV Guide Remotely
- Filter Channels on the TV Guide
- Manage Recordings
- Activate Voice Over Commands Functionality

Available on the  App Store

ANDROID APP ON  Google play

**MyTVs** 4+  
Innovative Systems L.L.C.

After downloading the app, open your **Menu**, select **Setting**, select **Apps**, and then **Device Code**. This code will be one needed to pair your device with all our **Set Top Boxes (STBS)**.

**You will be able to pair “five” devices to your STBS.**

# Whats Hot App

Nothing on TV tonight? Need some ideas of what others are watching?

Press the YELLOW Button on your Remote Control and click on What's Hot!

The What's Hot App gives you the most popular programs being watched in your viewing area at the time as well as the most popular recorded programs and most popular series recordings!

*And from this one app - you can:*

- Set a recording
- Set a series recording
- Set a reminder
- Search for additional program times

# Additional Features

This system offers more customization for you.

You can set the look and feel of your guide, go to **Menu, Setting,** and then **Guide.**

You are now able to use the **Parental Control,** which includes time restrictions and TV rating. **The Default Code is 0000.** You can change the code in the **Menu, Settings,** and then **Parental.**

You can **edit your favorites** in the **Settings Menu** also. **You can have “multiple favorites” for everyone in your household. Each person can have his/her own list of favorites.**

# Remote

**TV** and the **CBL** will turn their respective devices **on or off**.

The **Yellow Button (A)** will bring up the What's Hot App and Weather App options.

The **Red Button (C)** will bring up the Weather App directly.

While in the guide, the **Green Button (D)** will start a program from the beginning if **Restart** is available.

The **Rew, Play, FF, Stop and Pause** will function with **Restart TV and Cloud DVR (CDVR)**.

The **List Button** will quickly bring up your **CDVR Menu**.
